Education

Full Stack Web Development

Masai School, Bengaluru
Jul 2022 - June 2023

Bachelor of Arts in History

D.S College, Katihar, Bihar
Aug 2020 - Sept 2023

Advance Diploma in Computer Applications

Immense Academy, Katihar, Bihar
June 2019 - June 2020

Technical Skills

Java | Spring Boot | Hibernate | MySQL
Spring | HTML | CSS | JavaScript

Soft Skills

- Problem - Solving
- Consistency
- Adaptability
- Teamwork

Certifications

- Java (Basic) by HackerRank 
- ZMC by Masai School 

Interest

Learning new technologies,
Sports - Cricket, Travelling

Projects

Government Rural Employment Scheme | |

A comprehensive program to provide regular employment, guaranteed wages, and infrastructure development to uplift impoverished rural communities.

Features :

- Secure sign-in and sign-up authentication
- Efficient database operations with CRUD (Create, Read, Update, Delete) functionality
- Effective project allocation to Gram Panchayat Members (GPM) and workers
- Streamlined dependency validation using Lombok
- Seamless API integration and reliable database connectivity

Tech Stack : Java | Spring Boot | MySQL | Maven

An individual project built within the span of five days.

ShopKaro | |

An e-commerce application where customers can browse, purchase, and track their orders, while administrators can effectively manage the store's product inventory.

Features :

- Secure login and signup authentication for users and admins
- Search and filtering functionality for efficient product browsing
- Implementation of RESTful APIs for communication between frontend and backend
- CRUD operations for efficient management and manipulation of relevant entities
- User-centric frontend interfaces for seamless user experience

Areas of Responsibility :

- Implemented entity creation and established association mapping
- Developed robust login and signup mechanisms
- Implemented cart functionality for users to add and manage items
- Testing and debugging to ensure the stability of the application

Tech Stack : Java | Spring Boot | MySQL | Hibernate | Maven | HTML | CSS | JavaScript

A collaborative project built by five members within the span of five days.
